Hi, I'm ice!

Ice & Co. is a local Indiana company specializing in the production of high-quality ice that is 100% clear specifically designed for spirits and cocktails. We start with 300LB Blocks of ice and cut it down to specific shapes.

Are there more sizes?

The most popular cube we sell is our 2"x2" cube. We also sell Collins spears, punch blocks, and cubes to fit rocks glasses of all kind. Feel free to request ice specific to you.

How do I get more?

Please email sales@cubeicle.com to place an order today! *(delivery is \$30, minimum quantity for bi-weekly delivery is 200. Average bar/restaurant volume can be anywhere from 200+ cubes a week if you use the ice for rocks pours and cocktails like old fashioned's and manhattans). Most bars setup a bi-weekly delivery schedule (depending on their freezer space).*

Why Would I pay for ice?

Clear ice is not only more visually appealing, but it is 100% free of imperfections like oxygen which makes the ice denser and melt very slowly. This is a new product to the state of Indiana but is the standard in markets and cities across the country, and even the globe. In an industry dedicated to hospitality we want to provide you with the tools necessary to give your guests the best products from the best local producers.

How to Use This ice:

Put me in the freezer, when ready place a single ice cube in a glass and if pouring a liquid that is room temperature - **pour slowly** – waiting for the ice to 'temper' so the ice doesn't fracture from the temperature shock. If the liquid is cold - like a cocktail - then feel free to pour on.

If you have any questions or would like more resources on Ice and how we produce it, please don't hesitate to email us!
